SUMMARY

Designer with a foundation in mechanical engineering and hands-on experience in product development, currently pursuing an MSc in Design and Digital Media with a focus on interaction design. Skilled in translating complex technical constraints into intuitive, user-centred solutions across physical and digital products. Passionate about design as a problem-solving practice, grounded in research, systems thinking, and iterative prototyping.

PROFESSIONAL EXPERIENCE

Product Manager Dec 2024 – Aug 2025
Assistant Product Manager Feb 2024 – Nov 2024

Integral LED (A division of Integral Memory Plc.)

- Introduced a new product range that secured a £1M business deal, expanding distribution to 450 UK retail stores.
- Launched 25 product ranges (~500 SKUs), coordinating cross-functional teams, and managing delivery in Wrike.
- Collaborated with design and compliance to ensure products, packaging and instructions aligned with brand and regulatory requirements.
- Contributed to the creation of a new luxury sub-brand, supporting design consistency and stock migration across product lines.
- Liaised between international suppliers and internal stakeholders, achieving a 95% on-time project completion rate.
- Conducted comprehensive market research to guide product development and inform strategic pricing decisions.
- Identified key product features for banners and website content to improve marketing strategies and increase sales.

Design & Marketing Consultant Aug 2023 – Jan 2024
Assistant Designer Jan 2021 – Jun 2021

Skyview Estate (Family business focused on designing and building a residential housing scheme)

- Designed and modified recreational areas, housing features and access points using SketchUp and Procreate.
- Advised on marketing strategies by conducting market analysis and providing print campaign recommendations.
- Designed a business logo using Canva, establishing a distinct brand identity for the housing scheme.
- Consulted on design decisions, offering input on selecting professionals for architectural and interior design.

Development Programme Manager Intern Jun 2022 – Aug 2022
Mattel Inc.

- Led a team to design and develop a robotic arm to automate toy car assembly, allowing for significant cost savings.
- Collaborated with a 7-person cross functional team to design an innovative product based on a provided prompt within 48 hours.
- Accelerated the design approval process by optimising workflows with Adobe Workfront, reducing turnaround time.
- Optimised an existing issue categorisation system, making it more dynamic for informed decision-making.
- Automated issue tracking workflows in Microsoft Excel.

Research Assistant Jun 2021 – Aug 2021
Stanford SHAPE Lab (Haptics Research Lab)

- Utilised Fusion 360 to design a 3D printed steering wheel which provides haptic feedback to users.
- Programmed the wheel to precisely adjust to user-specified angles using Arduino.

EDUCATION

MSc in Design and Digital Media Sep 2025 - Aug 2026
The University of Edinburgh
Concentration: Interaction Design

BS in Mechanical Engineering Sep 2019 - Jun 2023
Stanford University
Concentration: Product Realisation (Design & Manufacturing)

SKILLS

Design:	Figma, Unity, Adobe Illustrator, SketchUp, Procreate, Canva, Autodesk Fusion 360
Programming:	HTML, CSS, Python, C#, C++, Arduino, MATLAB
Manufacturing:	CAM-Computer Aided Manufacturing, CNC Milling, Milling, Turning (Lathe), 3D Printing, Laser Cutting, Sandcasting
Management:	Product Management, Project Management, Power BI, Agile Methodologies (Kanban), Wrike, Gantt Charts
Office Suites:	Microsoft 365 (Word, Excel, Outlook, PowerPoint, Teams, SharePoint), Google Workspace (Docs, Sheets, Forms, Slides, Gmail)
Languages:	English (Fluent), Spanish (Intermediate), Japanese & German (Basic conversational)
Core Strengths:	Written & Verbal Communication, Problem-solving, Attention to Detail, Organisation
